

JOB DESCRIPTION

Job Title:	Geotechnical Engineering Assistant (EIT)	Location:	Anchorage Office
Department:	Geotechnical	Reports to:	Department Manager
Schedule:	Monday-Friday (8 hours per day)	Status:	Full Time

Company Summary

HDL Engineering Consultants, LLC (HDL) is a leader in providing geotechnical, civil, transportation and arctic engineering, environmental and earth science, surveying, and construction management services in Alaska, with offices in Anchorage, Palmer, and Kenai. HDL provides a fun, interesting, and flexible work environment for our talented employees. We are seeking candidates interested in joining our client-focused team of professionals. We offer competitive salaries, excellent benefits, challenging projects, and great co-workers and clients.

Position Summary

This position works with our Geotechnical Department and materials testing group on design and construction projects. This positions provides assistance in the development of subsurface exploration plans, collection of subsurface data, laboratory testing, report writing, and client contact. This position requires the experience to complete geotechnical drilling with minimal oversight and the ability to write clear, concise technical documents.

Required Job Qualification:

- Bachelor’s Degree in Geological or Civil Engineering with geotechnical focus, or related field
- Minimum of 3 years related experience
- Passed FE Exam, actively working towards PE or licensed PE
- Valid driver’s license and a clean driving record
- Willing and able to work outdoors in inclement weather
- Willing to travel to remote communities in Alaska
- Capable of lifting 70 lbs. in a safe manner
- Experience developing technical reports

Essential Job Functions:

- Collect soil samples and log subsurface conditions
- Complete laboratory testing
- Generate field logs and daily reports
- Generate geotechnical reports
- Communicate with the Project Engineer

Work Environment

This position involves office and field work. When working in an office setting, this role routinely uses standard office equipment such as computers, phones, photocopiers, filing cabinets, etc. You may also be required to periodically occasionally climb, kneel or crouch, and reach with hands and arms. While working in the field this position will be working near drill rigs and construction equipment. Inclement
