

SGRRSA Capital Improvement Program 2019-2023

Welcome to the South Golden View Rural Road Service Area (SGRRSA) Capital Improvement Program (CIP) 2019-2023 project. The CIP document is a long term guide for capital project expenditures. It includes a list of capital projects the community envisions for the future, and a plan that integrates the timing of expenditures with the SGRRSA annual budget. The program identifies how a project will benefit the community, indicates the priorities assigned to different projects, and presents a target construction schedule. See below for a list of proposed projects:

Proposed Project List:

TO BE DETERMINED...
